Sr. No.	Website URL	Purpose of Website	Things Liked	Things Disliked	Overall Evaluation
1	NASA: https://www.nasa.gov/	Share space exploration with the public	Clean and modern design. - Easy navigation. - High-quality images and videos.	Some technical jargon may be difficult for non-technical users.	Good
2	Apple: https://www.apple.com/	Showcase and sell Apple products and services.	Minimalist and elegant design. - Focus on product visuals and features.	Limited product customization options. - Lack of detailed technical specifications.	Good
3	ISRO: https://www.isro.gov.in/	Promote India's space research and development efforts.	Informative and comprehensive content. - Wide range of resources available (publications, reports, etc.).	Design can feel outdated and cluttered. - Navigation can be challenging at times.	Needs Improvement
4	OpenAI: https://openai.com/	Advance and democratize artificial intelligence research.	Clear and concise explanation of AI technology. - Interactive demos and showcases of OpenAI's capabilities	Limited information about the team and company culture. - Focus on technical aspects may be over the heads of some users.	Good
5	SpaceX: https://www.spacex.com/	Make space travel more affordable and reliable.	Bold and ambitious vision for the future of space exploration. - Engaging content with regular updates on missions and launches.	Website can feel promotional at times. - Limited information about technical details and challenges.	Good
6	SPPU : http://www.unipune.ac.in/	Official website of Savitribai Phule Pune University	Clean and professional layout. - Easy access to important information for students and faculty	Limited engagement features for alumni and the wider community. - Some sections could benefit from more visual appeal.	Needs Improvement
7	FaceBook : https://www.facebook.com/	Social networking platform for connecting with friends and family.	Familiar and intuitive interface. - Large and active user base.	Privacy concerns and data security issues. - Potential for misinformation and echo chambers.	Needs Improvement
8	Twitter : https://twitter.com/	Microblogging platform for sharing short messages and news updates.	Real-time information flow on diverse topics. - Easy-to-use interface for quick updates.	Spread of misinformation and negativity can be overwhelming. - Limited character count can lead to oversimplification and nuance loss.	Needs Improvement
9	Gov Of India : https://www.india.gov.in/	Official website of the Government of India	Comprehensive repository of government information and services. - Searchable database of policies, regulations, and news updates.	Design can feel outdated and cluttered at times. - Navigation can be challenging for new users.	Needs Improvement
10	Indian Army : https://www.joinindianarmy.nic.in/default.aspx	Official website of the Indian Army	Insightful information about the Indian Army's history, structure, and operations. - Interactive features like virtual tours and recruitment guides.	Website can feel overly promotional at times. - Limited information about career paths and challenges faced by soldiers.	Good
